

# Ingersoll Skating Club Agenda

**Date:** October 5, 2021

**Location:** Zoom Meeting, Ingersoll

**Approval of Minutes:**

## **President: -**

I don't really have a lot to report as President. The only item I would like to discuss and is always a hard item to cover is the table. Thank you to all that have signed up for the table and are continually providing coverage. I kindly ask that all board members sign up for a turn at the table, and complete the chosen time on our google calendar. This was we will all be able to enjoy a weekend here and there.

Thank you for your consideration

### **Fundraising (Tracy/Ang/Cyndi):**

Fundraising envelopes have been handed out to all skaters. Parents were very receptive to this idea and loved the fact all dates were outlined, and all fundraisers were made known at the beginning of the year.

Little Caesars fundraiser is currently running and will end October 10. Facebook and the Website have been updated to reflect.

Some chocolate bar orders have been placed. I will be bringing the chocolate bars I have at my home to the arena Wednesday, so that we may place upstairs in the music room with the mint smoothies. This was orders can be fulfilled as the sheets are handed in. We have not yet placed an order for chocolate bars, as we have not had enough orders come in to justify.

**Program Co Ordinator (Laurie):**

PA coordinator: We currently have 9 returning PAs, 5 new PAs, and Stacy and Filippo available to help on Canskate 1 sessions on Saturdays. October scedule has gone out for Junior and Wed P&T sessions. Canskate sessions are booked with any and all available PAs every week.

Flipping through the PA binder Bessa brought me late last season, I see we used to do a PA of the Month (in addition to the PA of the year at Carnival). Any interest in starting that up again? Could give motivation to some of the younger PAs who do one day a week. We could recognize on our facebook page, and with a certificate... I would be happy to supply a small prize like a mint smoothie maybe...?
